# BEDBUG TREATMENT

## Preparation CHECKLIST

- 1). Remove all blankets, sheets, covers, pillows, bath towels, and curtains from the bed and room and run through the dryer on high heat for 30minutes . After drying , bag up in garbage bags .
- 2). Empty all drawers and closets and run all cloth belongings through a dryer on high heat for 30 minutes , then bag all of the belongings in garbage bags .
- 3). Mattresses and box springs should be left in place if they are not going to be discarded. This helps keep activity in place for the technician to treat and keeps them from going elsewhere in the home .
- 4). Plastic toys, books, electronics, and anything that cannot be washed should be bagged separately, removed , and inspected
- 5). Move furniture away from the wall at least 18inches if possible.
- 6). Remove all outlet covers and switch plates on the walls .
- 7). Remove all picture frames from the wall and stand them up against the wall for Treatment.
- 8). Fish tanks must be covered with a towel or plastic.
- 9). All clothing and linens , and other items must be cleaned and kept isolated until after the first treatment.
- 10). It is very important that all rooms be vacuumed prior to treatment, especially along baseboards.
- 11). All people and pets must be out of the building during treatment and may not re enter the home for 4 hours .
